CHRISTOPHER JOHNSON

Round Rock, TX | 361-532-9790 | c99johnson@gmail.com linkedin.com/in/c9johnson/

PROFESSIONAL SUMMARY

Motivated and Results-Proven Technical Support Engineer with subject matter expertise in complex systems troubleshooting. Currently leveraging extensive background in technical documentation and problem-solving to transition into **AI Training and Content Review**. Expert at evaluating technical accuracy, identifying logical inconsistencies, and refining complex data to improve system efficiency and user satisfaction.

CORE SKILLS

- **AI Training & Evaluation:** Prompt Engineering, RLHF (Reinforcement Learning from Human Feedback), Fact-Checking, Data Labeling, Bias Detection.
- **Technical Expertise:** Linux, Windows Server, VMware, Nutanix, Python (Currently Learning), System Implementation.
- **Analysis & Documentation:** Salesforce, Case Management, Technical Writing, Root Cause Analysis, Documentation Integrity.
- **Soft Skills:** Critical Thinking, Solution Projections, Active Listening, Resource Coordination, Collaborative Problem Solving.

RELEVANT EXPERIENCE

Technical Support Engineer (Remote) | **Dell Technologies** *July 2018 – October 2024*

- **Technical Content Analysis:** Analyzed highly complex technical issues to devise innovative approaches where established criteria did not exist, leading to a 20% increase in case management efficiency.
- **Systematic Evaluation:** Applied advanced diagnostic techniques to identify root causes and recommend high-accuracy solutions, reducing downtime and repeat issues by up to 50%.
- **Data Integrity & Documentation:** Documented complex diagnostics, interactions, and implementations in Salesforce, ensuring consistency and a 40% improvement in queue efficiency.
- **Process Optimization:** Verified warranty entitlements and streamlined workflows to minimize unnecessary procedural steps by 5%.

Triage Agent | **Dell Technologies** *December 2016 – July 2018*

- **Solution-Oriented Feedback:** Engaged active listening and proactive communication to ensure high-quality customer satisfaction and accurate resolution.

- **Efficiency Management:** Provided targeted technical support for hardware components, reducing overall call times for specialized queues by 25%.
- **Quality Assurance:** Managed complex timelines and communications to ensure total solutions were delivered for customer technical issues.

ADDITIONAL EXPERIENCE

- **Web Designer/Owner**, Good Water Designs (7.5 Years)
- **Service Manager/Heavy Equipment Tech**, Tanner Construction (2.5 Years)

EDUCATION & CERTIFICATIONS

- **Certified Nutanix Platform Professional**, Nutanix Nu.School
- **CompTIA Storage+**, CompTIA
- **Current Professional Development:** Actively training in AI/ML fundamentals, Large Language Model (LLM) prompting, and Python.
